Responsible Investing

Our beliefs:

- We act as **long-term stewards** to generate attractive returns while considering the interests of all stakeholders.
- We **integrate ESG factors throughout our investment process** to achieve better risk adjusted returns.
- We **prefer inclusion over exclusion** to more efficiently bring about change by working with companies.
- We engage as **active owner** to drive the sustainability of a company.
- We **allocate capital towards sustainable companies** to achieve positive real world impact.

Responsible investment activities are organized across four pillars:

- **Exclusion & Avoidance:** not investing in controversial activities or conduct.
- **ESG integration:** ensuring sustainability risks and opportunities are adequately considered in our investment analysis and processes
- **Active Ownership:** using our influence through engagement and voting to improve corporate behavior and specific ESG issue and achieve positive change
- **Positive Impact:** investing with an objective to achieve positive real-world outcomes and impact, such as contributing to the UN Sustainable Development Goals.

Next steps and further developments

Van Lanschot Kempen is committed to become a net-zero wealth manager by 2050, with an intermediate target of at least 50% CO2 reduction by 2030 (base year 2019). With our 2030 and 2050 net zero goals, come ambitious carbon footprint reduction targets for discretionary AuM of -7% annually.

We aim to (re)allocate our clients' assets towards the opportunities presented by the three most important transitions of our age: the energy, food and materials transitions. This is done through our in-house funds as well as externally managed funds.

We focus on three themes: Climate and biodiversity, Smart and circular economy and Living better for longer. Six of the United Nation's seventeen Sustainable Development Goals (SDGs 3, 7, 8, 12, 14 and 15) correspond to these themes. We recognize that these themes need to contribute to the transitions that our society needs to realise.
